Suggested Order for Menu and Recipe Folders

In order to make the task of evaluating the menu and recipe portion of the contest easier for the judges, here is the suggested order of the contents.

Make sure you follow the rules and use a soft bound folder or binder.

The name of your school and state must be on the cover.

Use the official templates found on the website here:

<http://www.nraef.org/ProStart/Invitational/Resources>

Do not include any additional information not requested in the rules.

Use good quality photos. Print them as large as possible without losing picture quality.

Keep the photo, recipes, recipe costing, and menu price sheets for each course together and separate each course with a tab.
