978-1-58280-347-0		EACH		

The *ServSafe Manager* book and *ServSafe Coursebook* have been updated to ServSafe 7th Edition. The 7th Edition reflects a new job task analysis (JTA) and is based on the *2013 FDA Food Code*, and the *Supplement to the 2013 FDA Food Code*.

The updated ServSafe Food Protection Manager Certification Exam, based on the new JTA, will not be released until later this summer. Until that time, you will need to continue to teach 6th Edition (6R) content with the use of the 7th edition textbooks. To ease the transition to the 7th edition, we have created a bridge document that you can download here or on ServSafe.com.

[To access this document on ServSafe.com, follow the these instructions:](#)

Navigate to the "Instructors/Proctors" tab

Select "Instructor Resources" from the navigation bar

Click on "Access ServSafe Manager Instructor Resources"

After logging into your account, scroll down to the "Manager Book 7th Edition" section and select "ServSafe Food Protection Manager 7th Edition Bridge Document"

This bridge document covers content changes have been made to the 7th Edition. The types of changes that have been made fall into three categories.

Revised content: Content that existed in the previous edition of the books but has been revised in the 7th edition books.

Deleted content: Content that existed in the previous edition of the books but has been deleted from the 7th edition books.

Added content: Content that is new and has been added to the 7th edition books. We have not included this information in the bridge document as the information is not relevant to the exam at this time.

During this transition period, we ask that you do the following:

If you still have ServSafe 6th edition (6R) books: Continue teaching the 6th edition (6R) content until notified

If you have purchased ServSafe 7th edition books: Continue teaching the 6th edition (6R) content and use the bridge document for reference

When the Exam based on the new JTA becomes available, we will be providing new PowerPoint presentations that include all of the necessary content updates for a full transition to 7E and the associated Leader's Guides. We will also provide a transition document that details all of the changes between 6R and 7th Edition. We will continue to email and post updates on ServSafe.com as more information on timing becomes available.

Thank you,

The ServSafe Team
